INFORMATION.

Shoe Warehouse Ltd was established in the year 2005 to design, manufacture and distribute leather shoes. It has a brand name of BUFFALO FOOT WARE.

The company is owned and operated by its Principal investor who is responsible for its overall business management, strategy and long term plans.

The factory is located 2 miles from Kampala on Ggaba Road at Bunga. The factory is 7000sq feet and it's equipped with over 200 different machines.

The company needs a footwear designer who can improve on footwear brand. He/ she should have knowledge and experience in different manufacturing systems and construction of quality footwear. Should be able to design from initial concept to production, to manage initial costing and estimation during sample and development stage, be able to offer recommendation on productivity, quality, quantity and be able to offer solutions related to production process and maximum man power utilization and to plan in detail direct production activity in terms of output quality and quantity, cost, time labor requirement so as to ensure smooth flow of production.
